

The Exclaimer Tour

A how to guide for Exclaimer partners on how to use the interactive product tour with customers and on your website.

The Exclaimer Product Tour

The Exclaimer Tour has been created to provide prospective customers with a preview of the Exclaimer product, without the need to start a trial.

The Tour is intended to take less than 5 minutes to complete and explores the value that Exclaimer provides, including many key features.

A version of the tour has been created for use by channel partners. Exclaimer's partners can choose to share the hyperlink to the tour with their customers as well as embed the tour on their website.

Unlike the version hosted on the Exclaimer website, there are no calls to action included in this version. We highly recommend that you host the tour somewhere you can place your own form, contact information or other call to action to maximise effectiveness.

Below is included the different ways you can make the tour available to your customers:

Hyperlink

<https://exclaimer.navattic.com/t17q03u7>

Responsive Embed

Use the below code to place a responsive iframe on your website page, this will scale the frame to fit the size of its parent element:

```
<iframe src="https://capture.navattic.com/clhj5a6t1007p08l37gvn5z9l" style="border:none;width:100%;height:100%" allow="fullscreen"></iframe>
```

Full Screen Embed

Use the below code to make the tour open full screen on your website page, taking the full height and width of the screen:

```
<iframe src="https://capture.navattic.com/clhj5a6t1007p08l37gvn5z9l" style="position:fixed;border:none;top:0;left:0;bottom:0;right:0;width:100%;height:100%;margin:0;padding:0;z-index:999999" allow="fullscreen"></iframe>
```

Fixed Dimension Embed

Use the below code to make the tour a specific width and height on the screen, ensure you change the pixels in orange to match your specific requirements:

```
<iframe src="https://capture.navattic.com/clhj5a6t1007p08l37gvn5z9l" width="800" height="640" style="border:none" allow="fullscreen"></iframe>
```
