

The leading email signature management solution

Who we are

Exclaimer is the world's leading email signature management provider, processing over 22 billion emails annually for 80,000+ customers worldwide. Our solution eliminates the headache of manual email signature updates, giving IT teams centralized control, security, and automation while enabling marketing, sales, and HR to use email signatures as a powerful engagement tool.

What we do

Exclaimer's cloud-based, enterprise-grade email signature management solution seamlessly integrates with Microsoft 365, Google Workspace, and major email platforms.

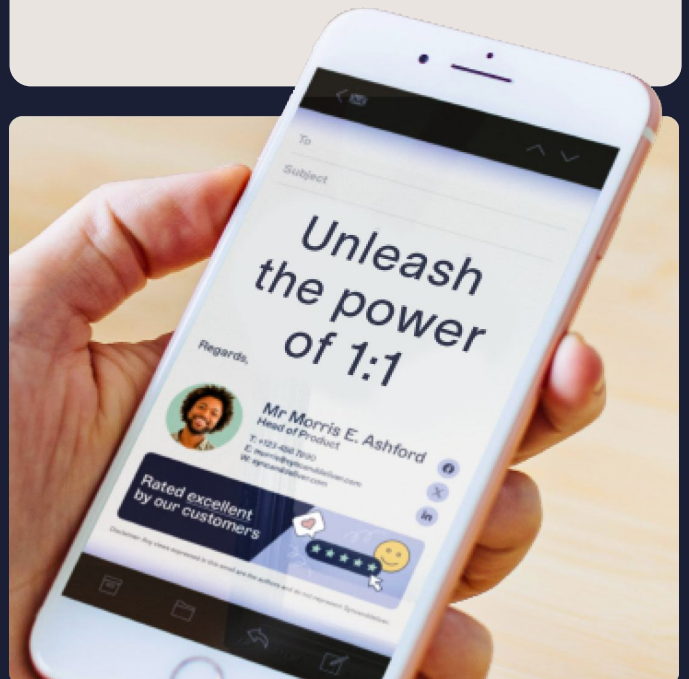

With Exclaimer, IT teams can:

- ✓ Ensure brand consistency across all emails, devices, and users.
- ✓ Automate signature updates without requiring employee action.
- ✓ Track engagement and drive conversions with built-in analytics.
- ✓ Enhance sales and marketing with targeted promotions and call-to-actions.

How we protect your business

- 🔒 **Enterprise-grade security:**
Exclaimer is SOC 2, GDPR, and HIPAA certified, ensuring compliance with the strictest security and data protection standards.
- ⚠️ **Reduced phishing risks:**
Our solution prevents unauthorized signature modifications, reducing the risk of impersonation and phishing attacks.
- 🛡️ **Centralized control:**
IT retains full oversight to enforce policies, maintain security, and streamline management.

Features & integrations

Exclaimer effortlessly integrates with:

Microsoft 365

Microsoft Exchange

Google Workspace

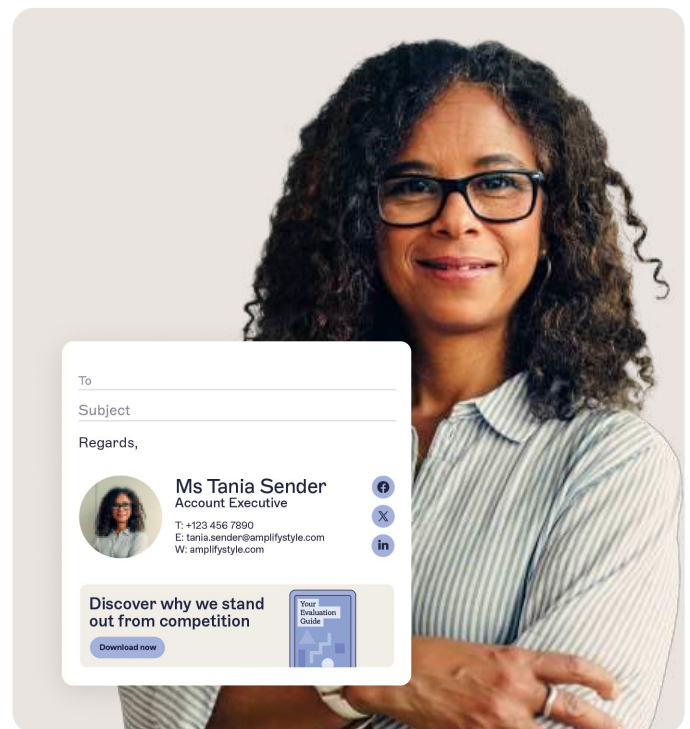

How to get started with Exclaimer

Exclaimer offers flexible procurement options to fit your business needs:

- ✓ **Distribution:**
We partner with leading distributors for easy procurement and integration.
- ✓ **Direct:**
Purchase directly from Exclaimer for fast deployment and onboarding.

Key features

- ✓ **Advanced security:**
We protect data at every stage with DevSecOps-built security, advanced firewalls, active DDoS protection, MFA with Google/Microsoft SSO, end-to-end TLS encryption, and more.
- ✓ **Centralized signature management:**
Control email signatures for all users and devices from one intuitive platform.
- ✓ **Dynamic branding:**
Maintain a consistent, professional brand with customizable designs, logos, and banners.
- ✓ **Actionable analytics:**
Gain insights with engagement metrics, including click-through rates that are 50% higher than standard email links.
- ✓ **Enhanced sales enablement:**
Boost conversions with booking links, activity tracking, and campaign-specific signatures.
- ✓ **Automated updates:**
Eliminate manual updates by syncing signatures directly with your directory.
