

# Secure your email signatures. Satisfy every stakeholder.

Built for compliance. Backed  
by certifications. Trusted by IT.

## Purpose-built for secure email signature management

Exclaimer is engineered to meet the highest security, privacy, and compliance standards—certified by third parties and proven in enterprise environments. It gives IT the clarity and evidence needed to assess, approve, and deploy with confidence.

### Certified. Audited. Documented.

Exclaimer meets key global security and compliance standards:

### Secure by design. Built for scrutiny.

- **Hosted in Microsoft Azure**  
Data stays in-region across 14 global datacenters (US, UK, DE, NL, AU, AE, CA)
- **No email content stored**  
Data is processed in memory and never stored or logged
- **Encryption throughout**  
TLS in transit, AES 256 at rest, RSA 2048
- **Strict access controls**  
SSO, MFA, and RBAC supported
- **Built-in audit logging**  
Every login is recorded, timestamped, and traceable

### Trusted by global IT and security teams

***“Exclaimer fully complies with all specified requirements.”***

NEC XON Holdings Group

***“Exclaimer has all the certifications and auditing capabilities we expect of any vendor.”***

Danesmoor Group

***“Keeping our data safe is a requisite for all vendors—Exclaimer accomplishes this.”***

CHNK Behavioral Health

***“The only provider that openly shared where our data is stored. That mattered.”***

Proper Cornish Ltd
